Wax on gel coat lasts longer

## SPECIAL USES

Wash cars, trucks and airplanes  
Attach to pressure sprayers  
Take along to Car shows

***YOUR OWN SOFT WATER  
SYSTEM ANYWHERE YOU GO !***

## OPTIONS

- Sizes: Available in two sizes to accommodate various needs and storage constraints.
- Pre-Filter: Eliminates sediment particles from well systems or from infrequently used water lines (used for regenerating).
- Dual-Filter: Final filter housing for special carbon cartridges to remove problem chemicals and minerals. Filter can be by-passed during wash downs.
